

Phone Orders

by Seven Spaces

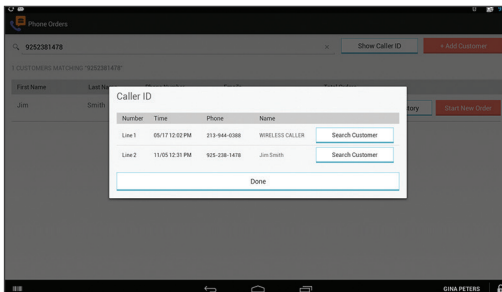

Caller ID

Number	Time	Phone	Name	
Line 1	05/17 12:02 PM	213-944-0388	WIRELESS CALLER	<input type="button" value="Search Customer"/>
Line 2	11/05 12:31 PM	925-238-1478	Jim Smith	<input type="button" value="Search Customer"/>

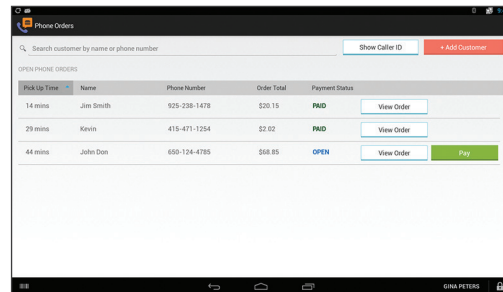

Use caller ID to easily create new orders, pull up past orders, and create new customer records

The Phone Orders App enables you to use caller ID to create new phone orders and customer records. Use phone numbers to pull up past orders and search for existing customers.

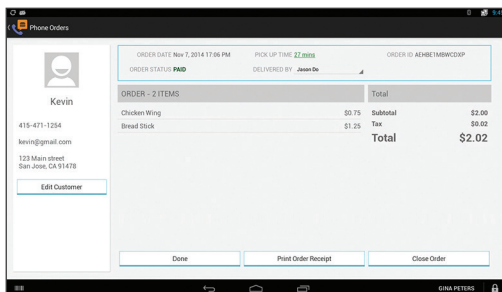

(Note: To use caller ID with this app, you'll need Ethernet Link - Whozz Calling? POS (Basic) hardware. The app can also be used without the caller ID hardware.)

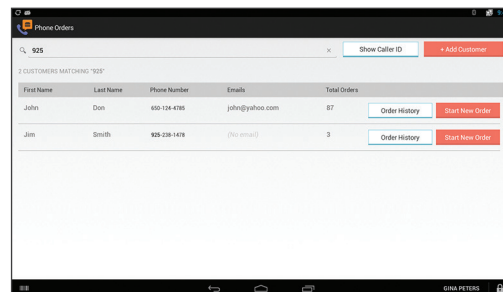

See which customer is calling using integrated caller ID. Use caller ID to pre-fill in new customer information, or pull up existing customer records.

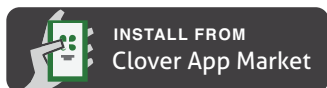

Manage all open phone orders to ensure timely delivery

See order details. View all previous orders tied to a customer.

Use caller ID, or input a phone number to pull up existing customer records or create new ones
