## Employee scheduling made easy with Homebase & Clover

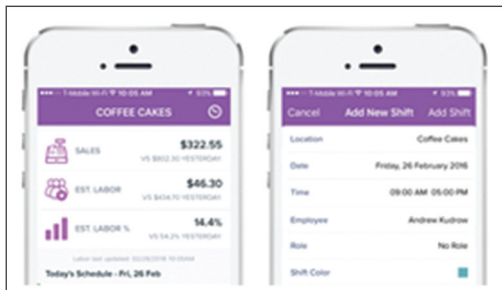

Say goodbye to paper schedules and employees asking "when am I working again?!". Homebase takes the headache out of labor management with a powerful suite of scheduling, time tracking, messaging and reporting tools. Build an employee schedule in minutes, send text reminders to employees and track clock-ins directly from the Schedules app on your Clover.

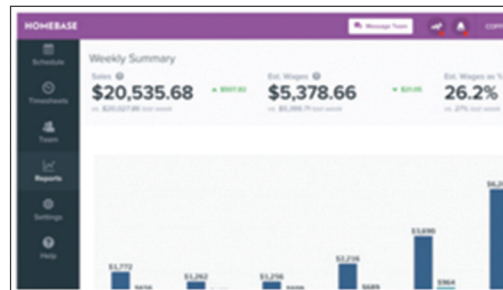

Employee Scheduling: easy online scheduling, wage forecasting, and schedule communication

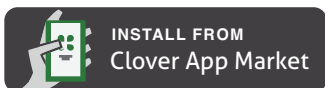

Employee time tracking, break management, and schedule adherence

Mobile Apps: shift reminders for employees, manager alerts for missed shifts & overtime, self-service tools & more!

Reporting: real-time dashboards, labor cost & sales reports, accessible from anywhere!
